# План

- Начини претраге
- КоБСОН-ова страница
- Појединачни сервиси
- Ембарго, у штампи, ПДФ формат
- Читање 2.0 и уређаји
- Електронске књиге доступне преко КоБСОН-а
- Сервис eVrary

# Комбинација кључних речи

- Обавезно је коришћење логичких оператора између појмова
- Размислите о кључним речима
- Комбинујте прво мањи број појмова, а после додајте још појмова

# Синтагма или претраживање фраза

- Уколико не укуцате логичке операторе између појмова, база ће то да схвати као синтагму. У неким базама су обавезни наводници за синтагму
- Ако нисте сигурни да је ваш појам синтагма, убаците између речи логичке операторе

## Načini pristupa

### Kome je KoBSON dostupan

KoBSON portal dostupan je bez ikakve nadoknade i autentifikacije svima sa akademskog IP domena u Srbiji. Neophodno je u internet browser-u podesiti proxy server odgovarajućeg univerziteta.

Od 2004. godine korisnicima je omogućen i udaljeni pristup ("od kuće", posredstvom komercijalnog provajdera) i to pod istim uslovima kao i iz IP prostora akademske mreže. Praćenje korišćenosti KoBSONa ukazuje da oko 30% naših korisnika koristi informacione izvore izvan uobičajenog radnog vremena (noću, vikendom, praznikom). U ovom režimu do danas imamo registrovanih 9500 istraživača iz Srbije, što je oko trećine ukupnog broja registrovanih istraživača prema poslednjem popisu Republičkog zavoda za statistiku.

### Pristup sa akademskog IP domena

Sadržaji KoBSON-a dostupni su svim istraživačima koji rade u akademskim i naučnim institucijama povezanih na [Akademska mrežu Srbije / AMRES](#). Adrese proxy servera na univerzitetima u Srbiji su:

Univerzitet u Beogradu i Kragujevcu	proxy.rcub.bg.ac.rs	147.91.1.45
Univerzitet u Novom Sadu	proxy.uns.ac.rs	147.91.173.31

У организацији  
Универзитетске библиотеке "Светозар Марковић"  
Филолошког факултета Универзитета у Београду  
Задужбине Иве Андрића у Београду

**у четвртак, 13. октобра 2011. у 13. сати**  
отворена је изложба

**Како је тумачен Иво Андрић**  
поводом 100 година од објављивања првих књижевних радова и  
50 година од доделе Нобелове награде за књижевност

Изложбу су отворили  
др Јован Делић  
редовни професор Филолошког факултета у Београду

**Поздравне речи**  
др Стела Филипи Матутиновић, директорка Универзитетске библиотеке,  
проф. др Александра Вранеш, декан Филолошког факултета у Београду,  
Драган Драгојловић, управник Задужбине Иве Андрића у Београду

**Аутори изложбе**  
Вука Јеремић и Драгана Михаиловић,  
библиотекари саветници у Универзитетској библиотеци

### Едукација докторанада и млађих истраживача

Универзитетска библиотека "Светозар Марковић" организује едукацију докторанада и млађих истраживача у области евалуације, приступа и коришћења електронских извора научних информација. Вишегодишње искуство стечено у интерактивном раду са полазницима ових курсева сабрано је у приручнику

**Др Стела Филипи-Матутиновић** : "Електронски извори информација у науци: значај, врсте, доступност, процена вредности"

**Lynne Christine Alice** - превела Србислава Маја Шаховић "Како написати предлог квалитативног истраживања"  
Превод текста објављујемо уз сагласност издавача, Београдске отворене школе

**Ashworth, Lucian M.** - превела Србислава Маја Шаховић "Плагијаризам!"  
Превод текста објављујемо уз сагласност издавача, Београдске отворене школе

Последњи пут промењено: 25/05/2011 10:48

**Pretraživanje časopisa:**

Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi), proširena naslovima časopisa koji su imali Impakt Faktor u poslednjih dvadeset godina. Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

**Elektronski časopisi:**

Skup pretplaćenih izdavača čiji su naslovi dostupni u formi punog teksta.

## Pretraživanje časopisa

**KoBSON lista**  
Spisak svih časopisa koji su na neki način dostupni u bibliotekama Srbije (bilo elektronski, bilo u papirnoj formi). Prisustvo časopisa na toj listi je samo pokazatelj njegove dostupnosti, a nikako kvaliteta.

**Važno**  
Zabranjeno je preuzimanje svih radova iz jedne sveske časopisa (od korica do korica) jer bi to moglo dovesti do ukidanja pristupa tom servisu celoj akademskoj zajednici Srbije.

**Časopisi u papirnoj formi**  
Za strane časopise koji se nalaze u bibliotekama Srbije čija su godišta navedena u određenom vremenskom opsegu, molimo da konsultujete biblioteke telefonom da bi proverili tačnu godinu, volumen i broj.

**Nazivi disciplina**  
Nazivi Kategorija predstavljaju nazive disciplina, date su na engleskom jeziku i iste se kao što su navedene u JCR (Journal Citation Report).

**Academic Search Premier**

This multi-disciplinary database provides full text for more than 4,600 journals, including full text for nearly 3,900 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited references are provided for more than 1,000 titles.

[Title List](#) [More Information](#)

**Business Source Premier**

*Business Source Premier* is the industry's most used business research database, providing full text for more than 2,300 journals, including full text for more than 1,100 peer-reviewed titles. This database provides full text back to 1886, and searchable cited references back to 1998. *Business Source Premier* is superior to the competition in full text coverage in all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. This database is updated daily on EBSCOhost.

[Title List](#) [More Information](#) [Enhanced Business Searching Interface](#)

**ERIC**

*ERIC*, the Education Resource Information Center, contains more than 1.3 million records and links to more than 323,000 full-text documents dating back to 1966.

[More Information](#)

**Health Source - Consumer Edition**

This database is the richest collection of consumer health information available to libraries worldwide, providing information on many health topics including the medical sciences, food sciences and nutrition, childcare, sports medicine and general health. *Health Source: Consumer Edition* provides access to nearly 80 full text, consumer health magazines.

[Title List](#) [More Information](#)

**Health Source: Nursing/Academic Edition**

This database provides nearly 550 scholarly full text journals focusing on many medical disciplines. *Health Source: Nursing/Academic Edition* also features the *Lexi-PAL Drug Guide*, which covers 1,300 generic drug patient education sheets with more than 4,700 brand names.

## STUDIES ON THE PHARMACOLOGY AND TOXICOLOGY OF TESTICULAR HYALURONIDASE

*By* Joseph Seifter

*Wyeth Institute of Applied Biochemistry, Wyeth Incorporated, Philadelphia,  
Pennsylvania*

The spectacular advances along the lines of new curative or alleviating agents have de-emphasized the usefulness of adjuvants. Their importance, however, is evident from the various methods employed to prolong the action of drugs. The spreading properties of hyaluronidase suggest that it might be useful in therapeutics mainly as an adjuvant by permitting more effective and beneficial application of therapeutic agents. It does not have curative or alleviating action, except possibly in the treatment of infertility, nor does it contribute new actions to drugs.

The pharmacology and toxicology studies in this report were undertaken to answer these questions: Does purified enzyme have advantage over crude?

# Електронске књиге

✓ Електронске књиге су дигитализоване, виртуелизоване верзије књига које се могу читати преко рачунара или посебних уређаја – читача електронских књига.

✓ Многи програми и уређаји који се користе за приказивање садржаја електронских књига омогућавају читаоцу функционалност на коју је он навикао приликом читања књига штампаних на папиру: обележавање текста подвлачењем, дописивање коментара и обележавање страница.

# Електронске књиге

Електронске књиге се најчешће презентују у PDF формату и могуће их је на рачунару читати помоћу апликације Acrobat Reader, а овај формат препознаје и већина читача електронских књига

Данас у свету постоје многобројни модели ових уређаја од којих се тренутно два издвајају својим квалитетом и распрострањеношћу: Sony eBook Reader и Amazon Kindle.

Оба уређаја нуде већ поменуте функције карактеристичне за већину читача електронских књига

За кориснике у Србији препоручујемо коришћење уређаја Amazon Kindle пошто се Србија налази у систему продаје везаном за овај уређај.

# Електронске књиге

Електронске књиге могуће је читати и на таблет рачунарима и мобилним телефонима. Физичке димензије ових уређаја отварају нове просторе и нове временске периоде за читање.

# Електронске књиге

Да би читање било ефикасно и продуктивно потребно је користити уређаје примерене датим околностима и окружењу. Читачи електронских књига са екранима на бази технологије електронског мастила (Amazon Kindle) погодни су за “дуго читање”, док су таблет рачунари предвиђени за “кратко читање”.

## Introduction

The diagnosis and treatment of latex allergy is one of the most challenging problems confronting the clinician. Because natural rubber latex is a plant derived product of *Hevea brasiliensis*, variations in allergen total content, quantity of specific allergens in finished products, and variations in the individual allergens may occur during collection, storage and manufacture of finished rubber products. Thus, not all rubber products will result in sensitization or clinical reactions in patients. Because the human immune system is highly variable, an individual will not always react in

**eBrary**

*Izdavač: eBrary*

<u>iz akademske institucije</u>	<u>udaljeni pristup</u>
<u>iz akademske institucije, Novi Sad</u>	
(podešavanje Proxy servera)	(o pristupu 'od kuće')

### O servisu

Servis obuhvata preko 30.000 naslova knjiga iz svih oblasti nauke. Klikom na naslov knjige otvara se njen sadržaj u Quick view pogledu. Za punu funkcionalnost korišćenja teksta (kopiranje, štampanje, naglašavanje- highlight, dodavanje beleški ) potrebno je instalirati ebrary Reader (jednostavnim klikom na dugmence Install u instalacionom prozoru). Servis omogućava kopiranje teksta u druge aplikacije uz automatsko citiranje i izbor stila citiranja (MLA, APA i dr.). Preporučuje se otvaranje ličnog naloga na ovom servisu (Create Your User Account) koji pruža niz pogodnosti: pravljenje sopstvene police knjiga, pamćenje obeleženog teksta i unetih komentara. Prilikom otvaranja naloga mora se prijaviti e-mail adresa otvorena na nekom od pretraživača (gmail.com, yahoo.com, hotmail.com). Takođe, otvaranje ličnog naloga i kompletna funkcionalnost omogućeni su isključivo preko Akademske računarske mreže. Za sada, ove opcije nije moguće koristiti preko "Udaljenog pristupa".

Nije dozvoljeno štampanje i kopiranje teksta cele knjiga, a broj stranica koje je moguće štampati i/ili kopirati u druge aplikacije je ograničen.

## Welcome to ebrary!

Your library has access to [Academic Complete](#), a growing e-book collection spanning all academic subject areas.

Below are a few easy steps to help you get started. For further support and troubleshooting, please visit our [online training site](#).

## Getting Started

- [Get Quick Guide](#)
- [View Training Video](#)
- [Sign Up for Training](#)

- Conduct a search** – Use simple or advanced.
- Open a document** – Click on the title name or jacket.
- Explore the document** – Navigate to search terms, search the document for key words, jump to relevant chapters, flip through pages.
- Highlight text and take notes** – Create a bookshelf (if needed) to save and organize your research.
- Use InfoTools** – Link out to other online resources to expand your research.
- Print pages, and copy and paste text** – ebrary provides automatic citations with a URL hyperlink back to the source.
- Manage, archive and share research** – Organize your bookshelf and email folders

## Search and Browse

To search the entire collection, use the search box at the top left hand side of this site. Browse and search by specific subject areas by clicking on the links below.

» [Browse all titles](#)

Can't find what you're looking for? Browse *all* available ebrary content on our [Title Preview](#) site or email [sales@ebrary.com](mailto:sales@ebrary.com).

of *Basic & Clinical Pharmacology* is a important ways. First, the addition of new e editorial group has increased curren- of coverage; second, conversion to full- ed the clarity of presentation and total At the same time, the overall organiza- d and the educational content of previ- expanded.

the book is designed to provide a com- ve, and readable pharmacology text- ne health sciences. Frequent revision is with the rapid changes in pharmacol- the 2-3 year revision cycle of the the best in the field and the availability of an online version provides even greater currency. In addition to the full-color illustrations, other new features have been introduced. The Case Study at the beginning of chapters and the Drug Summary Table at the end of chapters will make the learning process even more interesting and efficient. The book also offers special features that make it a useful reference for house officers and practicing clinicians.

Information is organized according to the sequence used in many pharmacology courses and in integrated curricula: basic principles; autonomic drugs; cardiovascular-renal drugs; drugs with important actions on smooth muscle; central nervous system drugs; drugs used to treat inflammation, gout, and diseases of the blood; endocrine drugs; chemotherapeutic drugs; toxicology; and special topics. This sequence builds new information on a foundation of information already assimilated. For example, early presentation of autonomic nervous system pharmacology allows students to integrate the physiology and neuroscience they have learned elsewhere with the pharmacology they are learning and prepares them to understand the autonomic effects of other drugs. This is especially important for the cardiovascular and central nervous system drug groups. However, chapters can be used equally well in courses and curricula that present these topics in a different sequence.

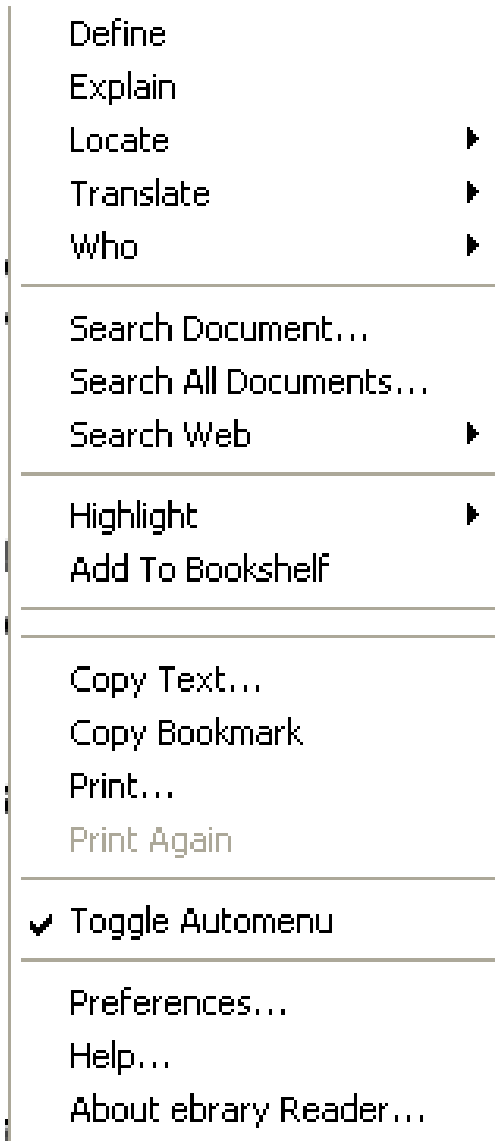

Within each chapter, emphasis is placed on discussion of drug groups and prototypes rather than offering repetitive detail about individual drugs. Selection of the subject matter and the order of its presentation are based on the accumulated experience of teaching this material to thousands of medical, pharmacy, dental, podiatry, nursing, and other health science students.

Major features that make this book particularly useful in integrated curricula include sections that specifically address the clinical choice and use of drugs in patients and the monitoring of their effects—in other words, *clinical pharmacology* is an integral part of this text. Lists of the commercial preparations available, including trade and generic names and dosage formulations, are provided at the end of each chapter for easy reference by the house officer or practitioner writing a chart order or prescription.

### Significant revisions in this edition include:

- A Case Study is used to open many chapters, providing an introduction to the clinical applications of the drugs discussed. Explicit answers are provided at the end of some chapters but discussion of the concepts involved will be found in the text of all chapters.
- A Drug Summary Table is placed at the conclusion of most chapters; these provide a concise recapitulation of the most important drugs
- Many new illustrations in full color provide significantly more information about drug mechanisms and effects and help to clarify important concepts
- Major revisions of the chapters on sympathomimetic, sympathoplegic, antipsychotic, antidepressant, antidiabetic, anti-inflammatory, and antiviral drugs, prostaglandins, nitric oxide, hypothalamic and pituitary hormones, and immunopharmacology
- Continued expansion of the coverage of general concepts relating to newly discovered receptors, receptor mechanisms, and drug transporters
- Descriptions of important new drugs released through December 2008, including numerous new immunopharmacologic agents

An important related educational resource is *Katzung & Trevor's Pharmacology: Examination & Board Review*, eighth edition (Trevor AJ, Katzung BG, & Masters SB: McGraw-Hill, 2008). This book provides a succinct review of pharmacology with over one thousand sample examination questions and answers. It is especially helpful to students preparing for board-type examinations. A more highly condensed source of information suitable for review purposes is *USMLE Road Map: Pharmacology*, second edition (Katzung BG, Trevor AJ: McGraw-Hill, 2006).

of *Basic & Clinical Pharmacology* is a important ways. First, the addition of new editorial group has increased current of coverage; second, conversion to full of clarity of presentation and total At the same time, the overall organiza- and the educational content of previ-

ous editions has been expanded. As in prior editions, the book is designed to provide a comprehensive, authoritative, and readable pharmacology textbook for students in the health sciences. Frequent revision is necessary to keep pace with the rapid changes in pharmacology and therapeutics; the 2-3 year revision cycle of the printed text is among the best in the field and the availability of an online version provides even greater currency. In addition to the full-color illustrations, other new features have been introduced. The Case Study at the beginning of chapters and the Drug Summary Table at the end of chapters will make the learning process even more interesting and efficient. The book also offers special features that make it a useful reference for house officers and practicing clinicians.

Information is organized according to the sequence used in many pharmacology courses and in integrated curricula: basic principles; autonomic drugs; cardiovascular-renal drugs; drugs with important actions on smooth muscle; central nervous system drugs; drugs used to treat inflammation, gout, and diseases of the blood; endocrine drugs; chemotherapeutic drugs; toxicology; and special topics. This sequence builds new information on a foundation of information already assimilated. For example, early presentation of autonomic nervous system pharmacology allows students to integrate the physiology and neuroscience they have learned elsewhere with the pharmacology they are learning and prepares them to understand the autonomic effects of other drugs. This is especially important for the cardiovascular and central nervous system drug groups. However, chapters can be used equally well in courses and curricula that present these topics in a different sequence.

Major features that make this book particularly useful in integrated curricula include sections that specifically address the clinical choice and use of drugs in patients and the monitoring of their effects—in other words, *clinical pharmacology* is an integral part of this text. Lists of the commercial preparations available, including trade and generic names and dosage formulations, are provided at the end of each chapter for easy reference by the house officer or practitioner writing a chart order or prescription.

**Significant revisions in this edition include:**

- A Case Study is used to open many chapters, providing an introduction to the clinical applications of the drugs discussed. Explicit answers are provided at the end of some chapters but discussion of the concepts involved will be found in the text of all chapters.
- A Drug Summary Table is placed at the conclusion of most chapters; these provide a concise recapitulation of the most important drugs
- Many new illustrations in full color provide significantly more information about drug mechanisms and effects and help to clarify important concepts
- Major revisions of the chapters on sympathomimetic, sympathoplegic, antipsychotic, antidepressant, antidiabetic, anti-inflammatory, and antiviral drugs, prostaglandins, nitric oxide, hypothalamic and pituitary hormones, and immunopharmacology
- Continued expansion of the coverage of general concepts relating to newly discovered receptors, receptor mechanisms, and drug transporters
- Descriptions of important new drugs released through December 2008, including numerous new immunopharmacologic agents

An important related educational resource is *Katzung & Trevor's Pharmacology: Examination & Board Review*, eighth edition (Trevor AJ, Katzung BG, & Masters SB: McGraw-Hill, 2008). This book provides a succinct review of pharmacology

## SECTION I BASIC PRINCIPLES

### C H A P T E R

# 1

## Introduction

Bertram G. Katzung, MD, PhD

### CASE STUDY

A 26-year-old man is brought by friends to the emergency department of the city hospital because he has been behaving strangely for several days. A known user of methamphetamine, he has not eaten or slept in 48 hours. He threatened to shoot one of his friends because he believes his friend is plotting against him. On admission, the man is extremely agitated, appears to be underweight, and is unable to give a coherent history. He has to be restrained to prevent him from walking

out of the emergency department and into traffic on the street. His blood pressure is 160/100 mm Hg, heart rate 100, temperature 39°C, and respirations 30/min. His arms show evidence of numerous intravenous injections. The remainder of his physical examination is unremarkable. After evaluation, the man is given a sedative, fluids, a diuretic, and ammonium chloride parenterally. What is the purpose of the ammonium chloride?

**Pharmacology** can be defined as the study of substances that interact with living systems through chemical processes, especially by binding to regulatory molecules and activating or inhibiting normal body processes. These substances may be chemicals administered to achieve a beneficial therapeutic effect on some process within the patient or for their toxic effects on regulatory processes in parasites infecting the patient. Such deliberate therapeutic applications may be considered

### THE HISTORY OF PHARMACOLOGY

Prehistoric people undoubtedly recognized the beneficial or toxic effects of many plant and animal materials. Early written records from China and Egypt and the traditions of India list remedies of many types, including a few that are still recognized as useful drugs today. Most, however, were worthless or actually harmful. In the 1500 years or so preceding the present,

DATA CLEANING 29

right? Probably not. Zip codes for the New England states begin with the numeral 0. Unless the zip code field is defined to be *character* (text) and not *numeric*, the software will probably chop off the leading zero, which is apparently what happened here. The zip code is probably *06269*, which refers to Storrs, Connecticut, home of the University of Connecticut.

The next field, *gender*, contains a missing value for customer 1003. We detail methods for dealing with missing values later in the chapter.

The income field, which we assume is measuring annual gross income, has three potentially anomalous values. First, customer 1003 is shown as having an income of \$10,000,000 per year. Although entirely possible, especially when considering the customer's zip code (*90210*, Beverly Hills), this value of income is nevertheless an *outlier*, an extreme data value. Certain statistical and data mining modeling techniques do not function smoothly in the presence of outliers; we examine methods of handling outliers later in the chapter.

Poverty is one thing poor customer 1004 has. U income of -\$40,000 lies b an error. It is unclear how t being that the negative sign should approach this value manager most familiar wit

So what is wrong with it may in fact be valid. But why the precision with cus values are meant to be cod 99999 was coded in an old database to mean *missing*. Again, we cannot be sure and should again refer to the "wetware."

Finally, are we clear as to which unit of measure the income variable is measured in? Databases often get merged, sometimes without bothering to check whether such merges are entirely appropriate for all fields. For example, it is quite possible that customer 1002, with the Canadian zip code, has an income measured in Canadian

So what is wrong with customer 1005's income of \$99,999? Perhaps nothing; it may in fact be valid. But if all the other incomes are rounded to the nearest \$5000, why the precision with customer 1005? Often, in legacy databases, certain specified values are meant to be codes for anomalous entries, such as missing values. Perhaps 99999 was coded in an old database to mean missing. Again, we cannot be sure and should again refer to the "wetware."
