

Žozef Mišel Mongolfije

Na današnji dan 1740. rođen je Žozef Mišel Mongolfije francuski pronalazač koji je sa svojim bratom Žakom Etijenom Mongolifjeom proizveo prvi upotrebljivi balon koji je poleteo. Prvi putnici u balonu braće Mongolfije bili su ovca, patka i petao. Balon se popeo na visinu od 500 metara i preleteo 3.5 kilometara. Let je trajao ukupno osam minuta i izazvao je pravu senzaciju. Prvi let balonom brance Mongolfije sa ljudskom posadom odigrao se 21. novembra 1783 u Parizu, a prvi letači su bili Pilatr de Rozije i markiz D'Arland. Balon je dostigao visinu od 1000 metara i preleteo 9 kilometara za 25 minuta. Posle ovih senzacionalnih uspeha braća Mongolfije su postali dopisni članovi Francuske akademije nauka i stekli su titule vitezova, a njihova deviza je postala "Ići ćemo ovako sve do zvezda!"
